

University Hospital Foundation

CORPORATE PARTNERSHIP PROGRAM

Make an Impact with the University Hospital Foundation

When you partner with the University Hospital Foundation, you contribute to cutting-edge research, diagnosis and treatment for 1 million patients every year while strengthening your brand image and employee engagement.

85% of consumers think it is important to buy from companies that support causes in which they believe¹

55% of job-seekers say it's important the company participates in charitable and philanthropic initiatives²

Your Impact, Multiplied

We know every business wants to make a difference in a unique way. Our goal is to develop a meaningful and well aligned relationship that will be evident to your employees, stakeholders and community. Our team will work closely to understand your key drivers and objectives so we can build a tailored partnership and measure impact.

We categorize partnership offerings into four main areas:

1. Corporate Gifts

Financial or in-kind donations provided directly to the University Hospital Foundation for a charitable tax-receipt.

2. Brand Building

Showcasing your commitment to health by aligning your brand to our world renowned academic health center.

3. Employee Engagement

Promote health by engaging your employees and fostering champions of the University Hospital Foundation through team building, campaigns, or volunteer activities. Tour behind-the-scenes to see your contributions at work.

4. Expand Your Network

Make those important connections by building strategic relationships, aligning with the right people in other organizations and getting in front of your ideal clients.
