MESSAGE FROM OUR PRESIDENT & CEO

THE ONE CONSTANT
WE CAN ALWAYS
COUNT ON IS CHANGE

As I write this message to you, I am struck by how much our world has changed in the past year. We are all experiencing COVID-19, the pandemic that has significantly impacted all of us. I hope and pray that you and your loved ones are staying safe, and that those of you who need help get it as quickly as possible.

We have also experienced changes here, at the University of Alberta Hospital, and, even closer to home, at the University Hospital Foundation.

Thank you to each and every one of you who contributed to the Brain Centre Campaign. The campaign wrapped up last September after raising an incredible \$70 million, changing brain care dramatically for thousands of Albertans and western Canadians.

The researchers that your generosity supports – such as Dr. Glen Jickling who is moving closer and closer to developing a blood test that will diagnose a stroke within minutes, and Dr. Jack Jhamandas, whose research in Alzheimer's disease may one day restore the memory in patients living with that terrible condition – stand to transform brain care for millions around the world.

Your donations supported a \$10 million gift to the Mazankowski Alberta Heart Institute in celebration of its tenth anniversary. These funds are already being put to valuable use in upgrading equipment and technology that is used every day in diagnosing and caring for cardiac patients across western Canada, and beginning an Innovation Fund to inspire more research and advancements in cardiac care.

You also gave Angelena Dolezar, a young Edmonton school teacher who lost her leg in a terrifying boating accident, her life back by funding osseointegration surgery – the most advanced procedure in the world for attaching prosthetic limbs.

Finally, there is the change that brought me here. My predecessor, Joyce Mallman Law, retired last fall. Her belief in the power of philanthropy to change and save lives lifted the University Hospital Foundation to great heights. As your new CEO, my passion will propel us forward, and create an environment of discovery and innovation that will be heard – and have impact – around the world.

And so I say thank you for making 2019-2020 an outstanding year for patient care, research and innovation at the University of Alberta Hospital. Your gifts made it possible for our medical teams to keep more families together, and to restore the ability in patients to do what so many of us take for granted – such as walking without pain, breathing without effort and living independently.

I hope you enjoy our 2019-2020 Annual Report. The accomplishments we celebrate are yours. The gratitude from doctors and patients we receive belongs to you.

That will never change.

Dr. Jodi L. Abbott, ICD.D
President & CEO, University Hospital Foundation

MESSAGE FROM OUR BOARD CHAIR

The Annual Report reflects the vitality and resilience of the University Hospital Foundation, which allows it to thrive in the midst of the significant upheavals which face healthcare today.

The year 2019-2020 was another successful fundraising year for the University Hospital Foundation (UHF). More importantly, this fundraising success led to the second highest amount in distributions in UHF's history, to support the work of the University of Alberta Hospital, the Mazankowski Alberta Heart Institute and the Kaye Edmonton Clinic.

These distributions enabled the Foundation to purchase state-of-the-art diagnostic and treatment equipment that have and will continue to have positive impacts on patient outcomes. The Foundation also contributed to leading research into the causes and treatment of diseases that are treated each and every day at the Hospital.

The success of the University Hospital Foundation is due to the hard work of many individuals dedicated to making our hospital site one of the best in Canada.

Such individuals include Joyce Mallman Law, who led the University Hospital Foundation to becoming one of the most respected healthcare charities in North America during her 11 years as President.

Dr. Jodi L. Abbott, ICD.D
President & CEO,
University Hospital Foundation

Following the retirement of Joyce Mallman Law in September 2019, Christy Holtby became acting CEO until the new President and CEO, Dr. Jodi Abbott, joined the Foundation in January 2020. Dr. Abbott's vision and passion promises to expand the impact of our donors to patients around the world through the support of innovation and transformative research.

The impact of the COVID-19 pandemic has put additional strain on the staff of the Foundation. However, under the leadership of Dr. Abbott, our foundation staff have remained committed and excited about the significant role that the University Hospital Foundation continues to play in our healthcare system.

This year also saw the conclusion of the Brain Campaign under the leadership of Jim Brown and Guy Scott. The University Hospital Foundation's Brain Centre Campaign succeeded in raising over \$70 million from our community of donors to transform care for brain patients across northern Alberta and western Canada. While the formal campaign may have officially ended last fall, the need for ongoing support for brain care remains as strong as ever. A big thank you goes to Jim and Guy and their respective

families for their incredible leadership and commitment to making brain care a priority at the University of Alberta Hospital.

Thank you to my fellow board members who volunteer their time and give so generously to support patient care and research at the University of Alberta Hospital, and are committed to making Edmonton a hub for patient care, research and innovation.

Most importantly, to you, our donors, thank you for being such invaluable members of the healthcare team at the University of Alberta Hospital.

Your commitment is our inspiration – and for that, we thank you.

David Finlay, Q.C.

Board Chair, University Hospital Foundation

MAJOR INVESTMENTS

The University Hospital Foundation distributed \$15.4 million in 2019-2020 to help advance healthcare at the University of Alberta Hospital, the Mazankowski Alberta Heart Institute and the Kaye Edmonton Clinic. Funds were used to support important clinical and equipment needs and innovative medical research, including research into new treatments for Alzheimer's disease.

BRAIN CENTRE CAMPAIGN

Thanks to your generosity, Edmonton is home to world-class brain care

Less than a decade ago, creating a Brain Centre at the University of Alberta Hospital (UAH) was an idea that needed one essential element if it had any chance to succeed – community support.

Eight years and \$70 million later, the University Hospital Foundation's Brain Centre Campaign ended last fall with a celebration that honoured the donors who made it happen: the campaign's leadership team, led by co-chairs and prominent Edmonton-based philanthropists, Jim Brown and Guy Scott; and the medical teams that can now save and change the lives of more brain patients than ever before.

"We made a promise to bring the best brain care to Edmonton and we've done it," said Brown.

"The people of this great city showed once again that, thanks to their generosity, anything is possible," added Scott.

For brain patients, and their families, the advancements in brain care have brought more than just hope when it comes to fighting some of the most complex and challenging health conditions of our time – they're also getting the life-saving care they need sooner, recovering faster and living their lives with far fewer limitations.

"There is almost nothing we can't do for brain and spinal conditions at the University of Alberta Hospital, thanks to donors to the University Hospital Foundation," said Dr. Keith Aronyk, former Chief of Neurosciences at the UAH, and a driving force behind the campaign.

DONOR-DRIVEN ADVANCEMENTS

From non-invasive brain surgery at the Scott and Brown Families Advanced Imaging and Gamma Knife Centre, where over 500 patients have already received treatments to eliminate non-cancerous tumours, brain malformations and metastatic cancers that have spread to their brain, to the image-guided clot retrieval procedures (endovascular thrombectomy) that remove blood clots impeding blood flow to the brain of stroke patients, donors have given doctors the tools they need to do what was once unimaginable.

"Clot retrieval is the most significant advancement in stroke care since the clot-busting drug," said Dr. Jeremy Rempel, neurovascular interventional radiologist at the UAH. "The fact that we have two suites where we can perform the procedure means we are always ready for the next stroke patient."

SURGICAL PRECISION

Regarded as one of the most advanced surgical suites in Canada, the Dan & Bunny Widney Intraoperative MRI Surgical Suite is also one of the very few operating rooms in the world that enables surgeons to take crystal clear images of their patient during surgery.

That means if additional surgery is required, it happens immediately, as opposed to weeks or even months down the road – sparing patients and their families unnecessary waiting, and the stress that comes with it.

"Intraoperative imaging is game-changing technology that puts us at the front of the line when it comes to brain surgery," said Dr. Matt Wheatley, Divisional Director, Department of Neurosurgery at the UAH. "We simply would not have this if it wasn't for community support."

TACKLING THE BIGGEST CHALLENGES

Ongoing investments in research have meant that researchers like Dr. Jack Jhamandas, who's closing in on a treatment that may restore memory in patients with Alzheimer's disease, and Dr. Glen Jickling, who's developing a blood test that will diagnose a stroke within minutes, can move steadily forward without long delays.

It also means that for debilitating conditions like multiple sclerosis, Parkinson's disease and ALS (also known as Lou Gehrig's disease), progress in developing tests for faster diagnoses, improved treatment plans and one day, cures, will happen sooner rather than later.

"Thanks to community support, Edmonton is now home to a brain centre of international stature, but that doesn't mean we're finished fundraising for brain care. There's still so much more to do."

— Jim Brown
Past Chair, UHF

\$10 MILLION DONATION TO THE MAZANKOWSKI ALBERTA HEART INSTITUTE

In honour of the Mazankowski Alberta Heart Institute's (Maz's) tenth anniversary, the University Hospital Foundation (UHF) made an historic donation of \$10 million to the Maz in September 2019.

Made up of thousands of individual donations from UHF donors, the gift continues the incredible legacy of community support that has helped make the Maz a world leader in cardiac care and surgery, and is a testament to the generosity of our donors.

In addition to a \$3 million Innovation Fund, much of the donation will be used to purchase new, advanced equipment and technology, further groundbreaking research and enhance future patient care initiatives that focus on improving cardiac care in the community.

Thanks to extraordinary donor support since the very beginning – 1 in 4 dollars that it took to build and equip the Maz came from the community – the Mazankowski Alberta Heart Institute has established itself as a world leader in cardiac research, advancing the prevention, treatment and study of cardiovascular disease. Each year, there are nearly 7,000 admissions to cardiology and cardiac surgery inpatient units and ICUs, and more than 26,000 multidisciplinary visits to outpatient cardiac clinics, including pacemaker and ICD (implantable cardioverter defibrillator) clinics.

Dr. Dylan Taylor, Health Minister Tyler Shandro, Dr. Verna Yiu, Jim Brown, Joyce Mallman Law and Mishaela Houle celebrating the Maz's tenth anniversary with a historic donation from UHF.

FUNDRAISING EVENTS

FESTIVAL OF TREES

The University Hospital Foundation's annual fundraising and friendraising event kicked off the holiday season in Edmonton by raising \$1.875 million in support of bringing osseointegration to the University of Alberta Hospital, making it the first hospital in western Canada to provide the procedure. This procedure will change the lives of people with lower limb amputations.

More than 230 generous sponsors and 2,000 dedicated volunteers helped make the 35th Annual Festival of Trees presented by Landmark Homes another wonderful success, with nearly 3,000 supporters attending the special events, including the Gala, which kicked off the festivities, the Silver Bell Soirée and the sold-out Luncheon & Fashion Show and Santa's Breakfast. Tens of thousands enjoyed the displays and

festive activities during the public days. The fundraising total includes a \$1 million anonymous donation that was made at the Gala.

Osseointegration is the most advanced procedure in the world for attaching prosthetic limbs. It is a surgical technique that directly attaches a prosthesis to the living bone of the limb by inserting a metal implant into the centre of the bone. This technique improves comfort, reliability, mobility and stability for people living with a prosthesis.

The funds will support the cost of implants for 10 patients, and the essential research program to track the outcomes and health economic implications of introducing this new procedure in Alberta. The first patient has received her surgery and is currently undergoing rehabilitation.

HEART PLEDGE DAY

In February 2020, the University Hospital Foundation raised over \$350,000 towards better diagnosis of heart conditions through Heart Month fundraisers, including 630 CHED Heart Pledge Day presented by Durabuilt Windows & Doors.

Hundreds of people donated to the Foundation's radio-thon in support of the Mazankowski Alberta Heart Institute (Maz), and throughout the month during a variety of community events, including the Maz Spin-A-Thon.

Funds raised were used to purchase a new echocardiogram machine and other diagnostic equipment. Diagnostics are critical to providing the best heart care, and at the Maz, treatment plans for 90% of patients begin with echocardiograms. Technology is always changing, and having the latest in diagnostic equipment ensures patients continue to receive the best care.

COMMUNITY EVENTS

Each year, members of our community are so compelled by the compassionate care at our hospital site that they feel the need to do something. Some are patients, others are family members and friends who have watched loved ones receive care. There are staff who work at the hospital who are so connected to the cause of ensuring patients receive the best healthcare that they volunteer their free time to fundraise. They all use their passion and creativity to inspire those around them to contribute. Together, the impact they make is extraordinary.

CRUISIN' FOR A CURE

When Spencer Sherwood's son, Brandon, was diagnosed with leukemia, Spencer's world changed. Spending months sleeping in the hematology unit, Spencer watched anxiously as Brandon received life-saving care. He and his wife would take turns sleeping in the chair in Brandon's room dreaming of the day they could take him home.

Thanks to the remarkable care in Unit 5F4, that dream came true and the Sherwood family was able to bring Brandon home. Yet, a thought kept consuming Spencer – what about all those other families who were still in the hospital with their loved ones? They, like his family, would spend many uncomfortable months sleeping on those unit chairs.

That's when Cruisin' for a Cure was born: a motorcycle ride to raise funds for the Hematology Program to increase patient and family comfort in Unit 5F4. In its first year, Cruisin' for a Cure raised enough funds to purchase three new chairs for patients and families, specially made to be comfortable yet tolerant of hospital-grade sterilization. Over the past two years, Cruisin' for a Cure has raised a total of \$15,683.60 for the Hematology Program.

Last August, Brandon was able to attend – sporting his signature panda helmet!

FULL HOUSE LOTTERY

The Full House Lottery, a partnership between the University Hospital Foundation and the Royal Alexandra Hospital Foundation, is northern Alberta's biggest and best lottery to support northern Alberta's two largest hospitals.

Through the proceeds from the 2019 lottery, the University Hospital Foundation is supporting research and patient care programs for dementia, including Alzheimer's disease, taking place at the University of Alberta Hospital and the University of Alberta. The University Hospital Foundation's share of the proceeds in 2019 totaled \$2,143,196, and will help advance vital Alzheimer's research, and get us closer to developing a treatment that could help restore memory in Alzheimer's patients.

Alzheimer's disease is an incurable brain condition that robs people of their memory, their identity, their ability to communicate, and ultimately, their lives. It's the most common form of dementia and it affects the lives of 1.1 million Canadians, a number that will almost double over the next 15 years.

Proceeds of the 2019 lottery also further support women's health at the Lois Hole Hospital for Women, where over 6,000 surgical procedures occur annually. The funding provided through Full House Lottery will support the completion of a state-of-the-art operating theatre which will have significant impact on cancer patients at the Lois Hole Hospital for Women.

STRATEGIC PARTNERSHIPS

Making a difference for Albertans struggling with some of the most daunting healthcare challenges of our time.

Collaborating with private industry, the public sector and philanthropic community members is another way the University Hospital Foundation serves as a catalyst for innovation, advances patient care at the University of Alberta Hospital, and attracts and retains leaders in healthcare from around the world.

NOVO NORDISK ALBERTA DIABETES FUND (NOVAD)

The 2019 competition winners leading the fight in diabetes and obesity were announced in June 2019 at Inventure\$.

ALBERTA BOEHRINGER INGELHEIM COLLABORATION (ABIC)

ABIC aimed at tackling treatment gaps for patients living with respiratory disorders using machine learning. Recipients of the 2019 competition were announced at BioAlberta's Awards Gala.

BIO INTERNATIONAL CONVENTION

At the BIO International Convention on June 4, 2019, the University Hospital Foundation announced the formation of three public-private philanthropic partnerships totaling nearly \$8 million which are aimed at investigating Chronic Obstructive Pulmonary Disease (COPD) using machine learning, diabetes and obesity, and health data analysis in the areas of oncology, gastroenterology, neuroscience and rare diseases. The collaborations represent the teamwork that's crucial to making province-wide health projects a success.

LEADERSHIP & EXCELLENCE IN PHILANTHROPY

MAINTAINING **FINANCIAL LEADERSHIP** IN OUR INDUSTRY

Once again, the Foundation achieved High Performer status from the Association of Healthcare Philanthropy (AHP), an international benchmarking program which evaluates organizational performance, including fundraising revenue, expenses, fundraising programs and staff involvement. As one of only 10 Canadian charities to receive this designation, it is a testament to how we apply our mission — to advance excellence — to our daily operations and financial integrity.

IMAGINE CANADA ACCREDITED

The Foundation also maintains Imagine Canada certification. Imagine Canada is a national organization that works with charitable organizations — and often in partnership with the private sector, governments and individuals in the community — to ensure that philanthropy continues to play a pivotal role in building, enriching and defining our nation. The Imagine Canada Standards Program awards accreditation to Canadian charities and nonprofits that demonstrate excellence in five areas of operations: board governance, financial accountability and transparency, fundraising, staff management and volunteer involvement.

Alberta's

ALBERTA'S TOP EMPLOYERS 2020

The Foundation was named one of Alberta's Top 75 Employers for 2020, the first time UHF received this honour. Alberta's Top Employers competition is a special designation that recognizes employers in Alberta that lead their industries in offering exceptional places to work and forward-thinking Human Resources practices. Employers were evaluated by the editors at Canada's Top 100 Employers in eight categories, including Employee Communications, Performance Management, Training & Skills Development, and Community Involvement, and are compared to other organizations in their field to determine which offer the most progressive and forward-thinking programs.

2019 2020

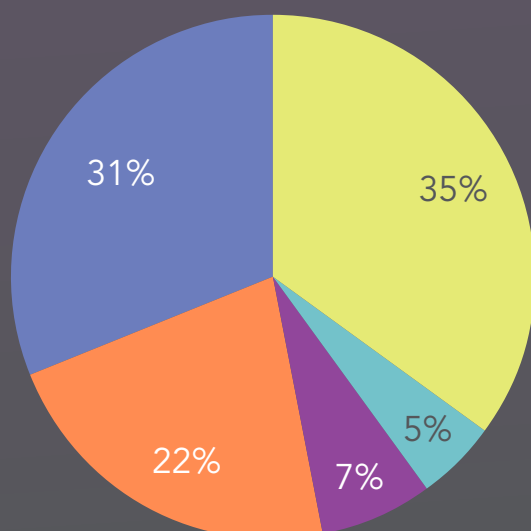

FINANCIAL HIGHLIGHTS

"COVID-19 changed everything late in the fiscal year; however, the University Hospital Foundation continued to provide resilient financial leadership and strong stewardship of donor funds. Our commitment to supporting our frontline workers and emergency funding needs, as well as internationally renowned research, leading-edge technology and innovations in patient care at the University of Alberta Hospital site has never been stronger."

— Don Wheaton
Chair, Finance & Investment Committee,
University Hospital Foundation

YOUR GIFTS AT WORK

Of the \$15.4 million distributed in 2019-2020, \$6.0 million was invested in critical areas of patient care and \$9.4 million in medical research. The University Hospital Foundation has also made commitments to distribute another \$39.5 million over the next three years, bringing our committed distributions from 2009-2023 to \$199.4 million.

Cumulative Distributions 2009 – 2023

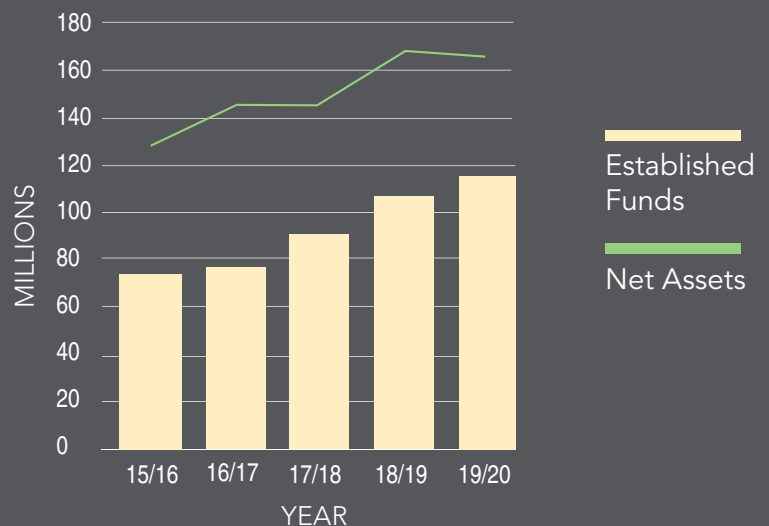

INVEST IN IMPACT THROUGH DONOR-CREATED ESTABLISHED FUNDS

In addition to tremendous community support, growth in our Established Funds has enhanced our ability to impact patient care. Over the past year, UHF added eight new Established Funds, bringing the total to 229 funds with a total value of \$113.3 million.

Of the \$15.4 million that was distributed in 2019-2020, \$3.1 million came from our Established Funds. Fund balances that are not distributed are invested within our balanced portfolio strategy.

The Foundation prides itself on being a secure place for donors to invest in long-term impact through the commitment that any unrealized market value losses are not allocated to the Established Funds. Instead, such losses are absorbed by the Foundation's General Fund.

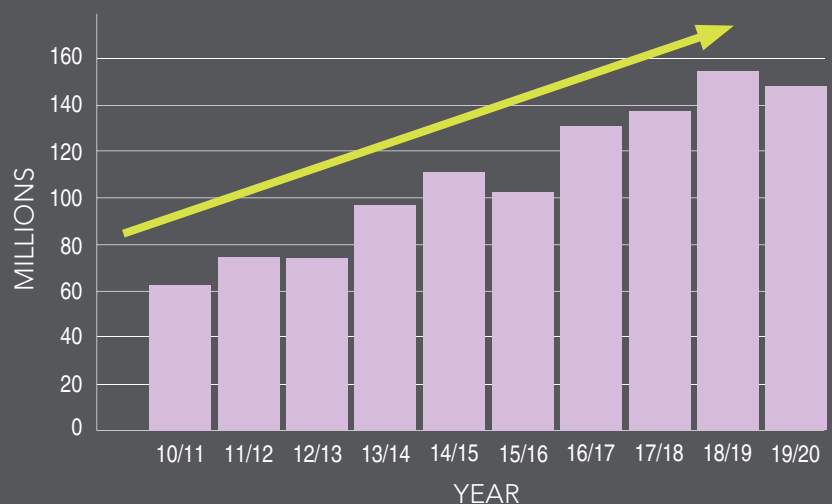

Growth in Net Assets & Established Funds

THE ROLE OF INVESTMENT

Our investments allow the University Hospital Foundation to provide sustained support to the University of Alberta Hospital site. They are governed by a conservative Investment Policy Statement and implemented by two balanced Investment Managers. The investments were not immune to the turbulent markets of early 2020 due to COVID-19; however, the goal of protecting donor funds was evident and the portfolio ended the fiscal year with a total return of 0.97%. In 2019-2020, investment income was allocated to the Established Funds at a rate of 1.50% (\$1.7 million).

Growth in Market Value of Investments

2019-2020 FINANCIAL HIGHLIGHTS

The University Hospital Foundation's financial statements are audited annually by the accounting firm KPMG LLP. The following is a summarized excerpt from our audited financial statements. For the complete version of our audited financial statements, please visit GivetoUHF.ca.

STROKE AMBULANCE

PROVIDING FASTEST STROKE TREATMENT IN ALBERTA

Thanks to our generous donors, the University of Alberta Hospital is home to Canada's Stroke Ambulance. It's the first of its kind in Canada, and the world, to provide stroke patient care beyond the limits of a major urban centre.

Strokes can happen anytime, anywhere, and timing for treatment is crucial.

The Stroke Ambulance is sent to the patient, instead of waiting for the patient to get to the stroke centre, reducing the time between stroke onset and treatment with tPA, a "clot buster" drug.

Fully equipped with its own CT scanner, medical lab equipment and the telecommunications gear needed to send clear images of the patient's brain within minutes to a waiting neurologist at the UAH, the Stroke Ambulance allows doctors to know which level of care is necessary before the

patient even arrives at the hospital.

The average door-to-needle time for the Stroke Ambulance is 23 minutes, the fastest in the province! Analysis shows that the Stroke Ambulance has achieved an 80% rate of good outcomes vs. 52% with usual care.

"During a stroke, 2 million neurons per minute are lost, so early intervention is key to minimizing potential damage," said Dr. Thomas Jeerakathil, Associate Director of the Edmonton Stroke Program. "We have been able to cut stroke treatment time dramatically and help improve patient outcomes thanks to donor support of the Stroke Ambulance."
